

## Streamline Success

The Elite HV<sup>®</sup>F portfolio offers range of standard valved introducer sheaths for various applications. Kits featuring an .018" dilator for micro-access introduction are also available. The .018" two-in-one system provides micro-access with a standard sheath, streamlining interventional procedures.

### Product Specifications

#### Sheaths

- Sizes range from 4F – 9F in 12cm lengths
- Smooth sheath-to-dilator transitions and a silicone-coated body facilitate ease of insertion
- Kink-resistance provides strength to withstand challenging cases
- Radiopaque markers on select sheaths provide visibility and confirm tip location

#### Needle

- Select kits include an 18G x 7cm needle

#### Dilators

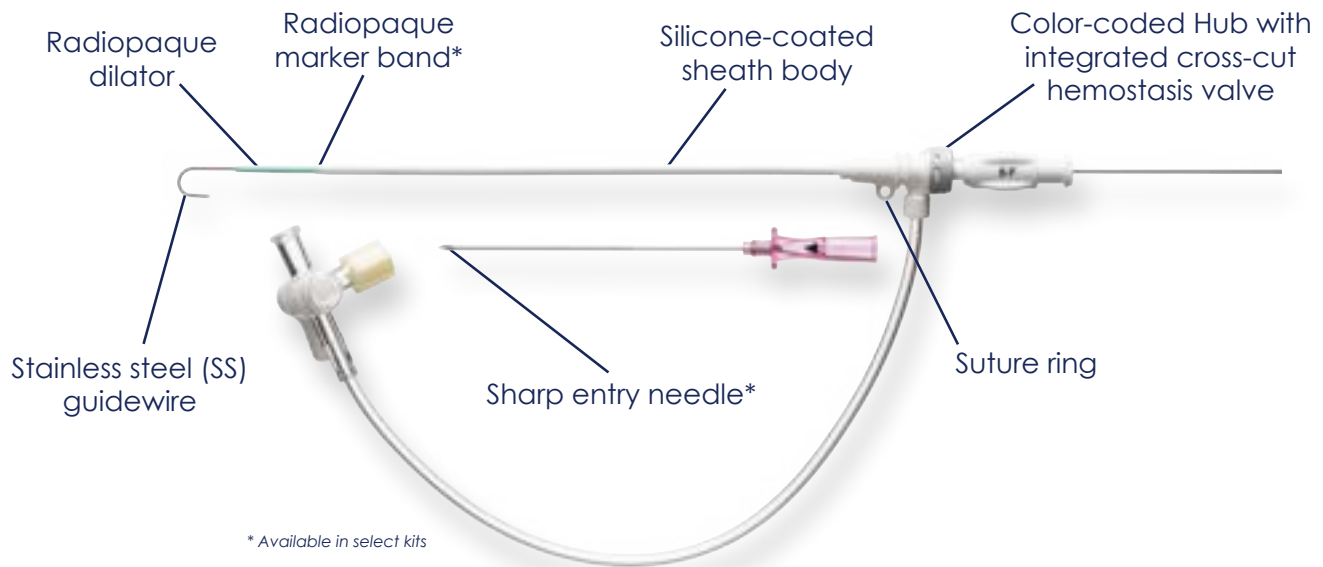

- Accepts .035" and .038" guidewires. Select kits also include an .018" dilator for micro-access
- Radiopaque dilators feature a smooth guidewire transition
- Snap-locking hub prevents backout during procedures

#### Wires

- 4Fr kits include an .035" x 50cm stainless steel wire with stainless steel J and straight tips
- All other kits include an .038" x 50cm stainless wire with stainless J and straight tips
