

# TEARAWAY Introducers

## Atraumatic Access with Consistent Performance

Featuring introducer sheaths with and without an integrated, low-insertion force hemostasis valve for a range of procedural applications.

### Atraumatic Access

- Ergonomic design with smooth, sheath-to dilator transitions and a lubricious body facilitate ease of insertion and minimize tissue trauma

### Consistent Performance

- Easy-to-thread, locking funnel prevents dilator back out
- Smooth peel helps maintain device placement

Valve minimizes blood loss and air embolism
